

The Flyer

Hello everyone hope you guys have been able to enjoy some nice weather out at the field. Looks like we have escaped the rain for a while, just a reminder our monthly meeting we be held at the field again this month. So come fly your favorite warbirds and enjoy the meeting followed by are raffle. I found this video on YouTube and anybody who likes quad copters will love this video it is the mathematics involved in the programming of quads so if you have some time please watch it. I think it will blow your minds, here is the link to the video.

PRESIDENTS MESSAGE

Greetings to all our Club members. It's August and a lot of activity at the field. Lots of members enjoying this great weather and getting in a lot of flying.

Well August is a nice month for vacations and just enjoying a day at the field. We normally have our Fun Fly in August. We had a couple of proposed dates 8-11-13 and 8-17-13. At this point it looks like the 8-11-13 date will not happen. The 8-17-13 date is a Saturday and would coincide with National Model Day . I would propose 8-18-13 for holding the event. We also are looking for inputs on the types of events we could have. As usual we need help in putting this together so please plan on attending our next meeting so we can iron out the details. The more people we have participating the more fun we have. So I hope you all can join us for this fun event including a cookout.

As most or all of you know we lost a great member and friend Dave Varrell who passed away suddenly on May 22nd. The Club has extended its help to the family in liquidating Dave's R/C Estate. A few members got together on Saturday the 3rd and tagged all of Dave's extensive inventory. He had many planes in complete and some cases never flown condition. The Family will hold a R/C only Estate Sale on the 24th and 25th of August at Dave's house, 24 Mathew Road, Billerica MA. I hope you all can make this event. Inventory

includes Planes (complete) radio's, servo's, many engine's (two and 4 cycle, gas), many propellers, wheels , tanks, kits and building supplies. One particular plane which needs final assembly is an ARF PBY with new twin Wankle engines. Planes are Bi-Plane's, Cub's, low wing, glider's and more. This is a sale worth attending. Attached is a Flyer outlining the event.

Next Wednesday the 14th is our last outdoor meeting held at the field. I hope to start the meeting early before the mosquito's come out, plan is to start around 7:00pm. Also Wednesday is WAR BIRD WEDNESDAY, so bring those military planes. I hope to see you all there. Paul Sullivan just bought a new Night Vapor indoor/outdoor airplane. This is such a cool little plane that flies well outdoors and looks really cool at night. Paul is most likely to bring it for Show and Tell. As well Paul and Steve are looking to put together a night fly using LED's for visual. It should be fun, we just need to iron out a few details with the Park's Department.

One additional item. We received a flyer announcing an Auction coming up on 8-14-13 which happens to be our meeting night. The Auction is selling the Estate of Harvey Thomasian an old time developer of model airplanes and the winner of numerous awards in many competitions. You can get time and location details and preview photos of the auction on "Auction and Previews" page of their web-site www.ginasauctiongallery.com . The auction will be held at 5:00pm.

I hope everyone will enjoy a great flying season and hope to see you at the August Meeting on the 14th of August.

Don't forget that Wednesday's are "WAR-BIRD Wednesday". Bring your War Bird to the field and enjoy some buddy flying, maybe even some simulated combat.

In closing I hope to see you at the Field. Good safe flying.

Thanks,

Jerry Crowley,
President MCRCF
