Frequency Tags **(Please read this section. ID or Frequency pin should be displayed when flying. Members flying with FM radios must display their frequency pin on the frequency pole.)**

Your unique looking MCRCF frequency tag is replaced yearly, and will serve as your club membership card while operating at the field. Members are responsible for ensuring that any guests have a current AMA membership and display an appropriate alternative frequency tag on the frequency pole. Guests should also understand and follow all club safety rules and operational procedures.

Members will have their MCRCF frequency tags marked with the official club stamp once they are approved for solo operation. There is strictly NO flying without a Club certified instructor or flight qualifier until you have become a club qualified pilot and your membership card/frequency tag is updated to include "Solo Pilot"

Channels

In the table on page 1, please write in the channel numbers of the radios you own and intend to use at the field in the coming year. Please make a separate request for any tags in excess of six, but only if you plan to use them. *If you will use a Spread-Spectrum radio system, use the letters "S-S" for one of your channel numbers.*
